Safe Workplace Function Tool

Technology solution to help you reopen and manage covid-19 workplace (Lab & Office) threat.

As you reopen your lab and offices avoid the scenarios where a single employee puts your entire office at risk. Implement process and technology measures to give employees confidence to return to office.

Get the Safe Workplace Function Tool framework to identify and correct hazards and improve safety.

What SWFT can do for your company

Allows employees to plan lab activities to ensure maximizes social distancing

- Person and Attendance
- Schedule
- Project/Study
- Location and Equipment
- Experiment & Activities

Track and provide visibility into lab and office usage

- Graphical schedule to plan experiments while proactively avoiding conflicts
- Allow lab users to identify location capacity conflicts and resolve among themselves
- Provide ability to trace contacts in case of a COVID19 infection

Solution that can be customized and improved over time

- Provide longer term view into usage to allow better planning in the context of lab capacity
